

Dockets Management Branch (HFA-305)¹
Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

I have taken compounded hormones for five years. In that time my symptoms of sleeplessness, jitteriness and anxiety have completely disappeared. I am unable to take other hormones because I do not absorb them properly. HRT is important to me and many other women because it greatly improves the quality of life.
